Profile:

Business analytics graduate with project-based experience in digital product development, market research, and cross-functional collaboration. Passionate about uncovering insights through data to drive business decisions and management outcomes, with strong interest in contributing analytical thinking and structured execution in product or project management roles. Committed to continuous growth and thrives in project-driven environments with clear goals and deadlines.

Education:

- Master of Business Analytics
The University of Adelaide, Australia
2023 – 2025
- Bachelor of Accounting
Universitas Muhammadiyah Yogyakarta, Indonesia
2017 – 2021
 - Participated in *Student Exchange Program* at National Central University, Taiwan (2019)

Experiences:

- a. Business Analysis Project – Asset Quality Review
The University of Adelaide | Aug 2024 - Nov 2024
 - Conducted data cleaning, processing, and performance analysis of U.S.-listed ETFs and stocks to assess market behavior before and after COVID-19 disruption.
 - Analysed changes in return, volatility, and liquidity patterns to identify market impacts and generate data-driven recommendations for risk management and investment strategy.
 - Translated analytical findings into business insights and strategic recommendations, supporting decision-making on portfolio risk and future opportunities.
- b. Digital Entrepreneur – No-Code Web Development Project
The University of Adelaide | Jan 2024
 - Designed and launched a no-code website, [What Dog Should I Get](#). Using framer to connect prospective adopters with suitable dog breeds while supporting adoption readiness through educational content.
 - Applied digital entrepreneurship principles, conducted market research to identify user needs and shaped the product concept, value proposition, and user-centric solution design.
 - Collaborated in a team to plan, build, and deploy an interactive web prototype within a short development cycle. Achieved 100% prototype functionality within 3 weeks.
- c. Customer Analytics Project – Performance Report on Google Merchandise Store
The University of Adelaide | Mei 2024 – June 2024
 - Analysed transactional and user behaviour data to identify performance trends across sales, conversion, product mix, and marketing channels.
 - Generated insight-driven recommendations to address declining revenue and Average Order Value (AOV), including optimizing high-margin products and prioritizing higher-converting channels.
 - Evaluated campaign efficiency using Return on Advertising Spend (ROAS) and Cost per Transaction (CPT) metrics, translating findings into data-driven growth and optimization recommendations.

- d. Business and Entrepreneurial Innovation – Tech eChallenge Project
The University of Adelaide | Feb 2023 – June 2023
 - Designed a mobile app prototype (*University Club Connect Student*) using Figma, translating user needs into a solution to improve student engagement with clubs and events.
 - Conducted product discovery through market research using the Jobs-To-Be-Done (JTBD) framework to identify pain points and support product-market fit.
 - Collaborated cross-functionally to research, prototype, validate, and pitch a tech-based product solution with real-world application.
- e. Assistant Lecturer – Accounting Department
Universitas Muhammadiyah Yogyakarta | Sept 2020 – July 2021
 - Collected and organized data to support lecturers' academic research projects, contributing to timely project completion and improved research accuracy.
 - Created learning materials, evaluation tools, and user manuals for the Accurate accounting system, improving student engagement and system understanding.
 - Prepared and delivered practicum sessions for Manufacturing Company Accounting, Accurate-ERP, and MonsoonSIM-based Accounting Systems, achieving strong student comprehension and over 90% pass rates in practical assessments.
- f. Marketing Intern – Bank Syariah Mandiri
July 2020 – Sept 2020
 - Conducted market research and analyzed potential client data to identify qualified leads and support customer acquisition efforts.
 - Supported go-to-market activities at a banking expo by promoting financial products, engaging customers, and contributing to client sign-ups.
 - Assisted in marketing planning and product promotion through telemarketing, direct outreach, and brochure design to drive customer interest.
 - Maintained accurate client data entry and validation in the banking system, supporting efficient onboarding processes.

SKILLS

- Product / Project: Product Discovery (JTBD), Market Research, Wireframing & Prototyping, Data-Driven Decision Making, Cross-Functional Collaboration, Project Coordination
- Technical & Analytical: Microsoft Excel, Microsoft PowerPoint, Power BI, Python, R, SAS, SQL, Tableau, Looker Studio, SPSS
- Product & Design Tools: Figma, Framer, Canva, CapCut
- Core Competencies: Critical Thinking, Problem Solving, Stakeholder Communication, Adaptability
- Languages: Indonesian (Native), English (Professional Working Proficiency)

Organization Experiences:

- Treasurer – PPIA University of Adelaide (Indonesian Student Association)
2023 – 2024
 - Prepared activity budgets and financial accountability reports for student-led programs.
 - Managed entrepreneurship and finance activities within the organization.
 - Served as committee member for cultural events promoting Indonesian culture on campus.
- Treasurer – UMY MonsoonSIM Community
2020 – 2021
 - Created budgets and financial reports for university-led training and competitions.
 - Designed and coordinated internal business simulation competitions using MonsoonSIM.
 - Provided routine training, evaluations, and mentoring for community members.
 - Represented the university at national-level MonsoonSIM competitions.
- Member – Himpunan Mahasiswa Akuntansi UMY (Accounting Student Association)
2017 – 2019
 - Served in the Research and Development Department to support academic initiatives.
 - Acted as Treasurer for the Accounting Aspiration event, managing finances and reporting.
 - Coordinated media and publication efforts for student activities and organizational events.
