Profile:

Business Analytics postgraduate from the University of Adelaide with a Bachelor's background in Accounting. Skilled in data analysis, cross-functional collaboration, and strategic problem-solving within digital product development and project management. Seeking to apply strong analytical capabilities and structured execution to deliver high-value results in dynamic business environments.

Education:

- Master of Business Analytics
The University of Adelaide, Australia (Feb 2023 – May 2025)
 - Awarded LPDP Scholarship from the Indonesian Ministry of Finance
 - GPA 3.17/4
- Bachelor of Accounting
Universitas Muhammadiyah Yogyakarta, Indonesia (August 2017 – December 2021)
 - Participated in Student Exchange Program at National Central University, Taiwan (2019)
 - GPA 3.77/4

Professional Training:

- Business Analyst, Product Management & Project Management Bootcamp
Dibimbing.id (April 2026 – Present)
 - Developing practical skills in business analysis, product strategy, Agile project management, stakeholder management, and product discovery through hands-on case studies and industry-based projects.

Project Experiences:

- Product Management Project – Click & Collect Feature Enhancement
Dibimbing.id | May 2026 – August 2026
 - Performing product research, competitor benchmarking, and user journey analysis to define product opportunities and prioritize feature improvements.
 - Developing Business Requirements Document (BRD), Functional Specification Document (FSD), and Product Requirements Document (PRD) to translate business needs into clear product requirements.
 - Designing and validating interactive prototypes while planning product experiments to evaluate usability and support data-driven feature decisions.
- Business & Entrepreneurial Innovation – University Club Connect
The University of Adelaide | Feb 2023 – Jun 2023
 - Designed a mobile application prototype to improve student engagement with university clubs and events through a user-centred product experience.
 - Conducted product discovery using the Jobs-to-be-Done (JTBD) framework, market research, and user validation to identify customer pain points and product opportunities.
 - Collaborated with a cross-functional team to research, prototype, validate, and pitch a technology solution, delivering the project within the academic timeline.
- Digital Entrepreneur – [No-Code Website Development](#)

The University of Adelaide | Jan 2024

- Built and launched a fully functional no-code website using Framer, delivering a product that connects prospective adopters with suitable dog breeds through an interactive recommendation experience.
 - Conducted market research to define user needs, develop the value proposition, and shape the product concept using customer-centric design principles.
 - Collaborated with a multidisciplinary team to deliver a working prototype within 3 weeks, achieving 100% planned functionality.
- Business Analysis Project – Asset Quality Review

The University of Adelaide | Aug 2024 – Nov 2024

- Analysed historical performance of U.S.-listed ETFs and stocks by cleaning and processing financial datasets to evaluate market behaviour before and after COVID-19.
- Assessed changes in returns, volatility, and liquidity to identify investment risks and opportunities, producing evidence-based recommendations for portfolio strategy.
- Completed end-to-end project analysis translated complex analytical findings into actionable business insights to support investment decision-making within the deadline, fulfilling 100% of the project scope and objectives.

Work Experience:

- Assistant Lecturer

Universitas Muhammadiyah Yogyakarta | Sept 2020 – Jul 2021

- Delivered practicum sessions for 6 undergraduate classes covering Manufacturing Accounting, Accurate Accounting System, and MonsoonSIM ERP Simulation System, contributing to over 95% student pass rates in practical assessments.
- Developed learning materials, practical exercises, assessment tools, and ERP user guides to improve students' understanding of accounting information systems.
- Collected, validated, and organized research data to support lecturers' academic projects, ensuring accurate datasets and timely project completion.

- Marketing Intern

Bank Syariah Mandiri | July 2020 – Sept 2020

- Conducted market research by gathering and analyzing data on potential client leads to successfully converted into new customers.
- Participated in a banking expo event to promote financial products, successfully engaging with attendees and securing new client sign-ups through direct communication and product explanation.
- Assisted in marketing planning and product promotion through telemarketing, direct outreach, and brochure design, which effectively increased customer interest and inquiries.
- Performed accurate data entry and validation of client information into the banking system, ensuring 100% accuracy and supporting smooth and efficient onboarding processes.
